

Ideas to Improve Your Security

1. Get to know your neighbors
2. Lock your side gate
3. Lock your windows and doors, even when at home
4. Get a guard dog or just put a dog leash and bowl in the front yard to make it look like a dog is present
5. Lock your garage side entry door
6. Lock your garage entry door to your house, even when the outer garage doors are locked
7. Post a security system sign in your yard or front window
8. Make your home look occupied
 - Keep your carriage lights on at night (They operate on photocells and will automatically come on at sunset and go off at sunrise if you leave them ON)
 - Put some inside lights on timers when away from home overnight
9. Install a doorbell camera
10. Secure your garage door track release mechanism
11. Secure your car
 - Put your car in the garage
 - Keep it locked if you cannot park in the garage
 - Do not leave valuables in it (Including your garage door opener), if it is not in the garage
12. Lock your electrical panel, it has 2 locations that should be locked, and is on the outside wall of your garage
13. Get a fire and burglary rated safe, bolt it to the floor, and use it for anything you do not want stolen
14. Install a burglar alarm system
